Director

General Hospital (Teaching) Peradeniya

**Vaccination of pregnant women against COVID 19 subsequent to Sputnik V
administration**

This is with reference to your letter no. THP/Public Health/2020, requesting advice regarding the 2nd dose of sputnik V vaccine for pregnant women who received the 1st dose 5 months ago prior to getting pregnant.

This issue was discussed at the meeting of the Advisory Committee on Communicable Diseases held on 12/11/2021. The decision of the Committee was to get the advice of the Epidemiology Unit regarding such pregnant women, on an individual basis.
